Dual SRS Airbags

Drive around knowing that the Mitsubishi Mirage's airbags will provide additional protection for you and your passenger during direct frontal collision.

1.2L 3-cylinder 12-valve DOHC (3A92) with MIVEC

The MIVEC adjusts the timing of the intake camshafts for optimal performance across the RPM range. By optimizing the valve timing, more air is allowed into the cylinder, ensuring a more efficient burn.

INVECS-III CVT

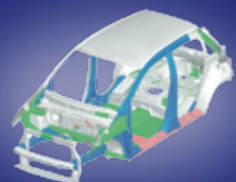

The INVECS-III CVT maximizes the engine power and RPM resulting in excellent fuel economy while still providing smooth and agile driving feel throughout the rev range.

Adult Occupancy Protection Mini Car category

Won the ASEAN NCAP Grand Prix Award for Adult Occupancy Protection in the Mini Car category.

Reinforced Impact Safety Evolution (R.I.S.E.) Body

440 MPa 590 MPa 270 MPa

The R.I.S.E. Body ensures the safety of all passengers. The body structure's crumple zones effectively absorb and disperse crash energy from all directions, minimizing cabin deformation and protecting the occupants.

4.6m

Small Turning Radius

The Mitsubishi Mirage has a tight turning radius of 4.6 meters, one of the tightest in its class.

AERODYNAMICS

Aerodynamic Design (C_D = 0.29)

The Mirage's low drag coefficient results in better performance and fuel efficiency.
